Dmytro Pogribnyy

Senior QA Automation Engineer | Playwright | TypeScript / JavaScript | AI-Assisted Development & Prompting

Bratislava, Slovakia | EU Work Authorization | Remote EU/UK · US · Canada | linkedin.com/in/dmytro-pogribnyy | dmytropogribnyy.github.io | dipptrue@gmail.com

CORE SKILLS

- **Playwright + TypeScript / JavaScript**
- Selenium → Playwright Migration
- UI & API Automation
- CI/CD Integration
- Framework Architecture
- Test Reliability & Flakiness
- BDD / Page Object Model
- Cross-browser Testing
- AI-assisted development & prompting for test automation

TECH STACK

Playwright · Selenium · PyTest
TypeScript · JavaScript · Python
GitHub Actions · Azure DevOps
GitLab CI · Jenkins
Docker · AWS (QA) · Git
Postman · Allure · Jira

AI-ASSISTED DEVELOPMENT & PROMPTING

- GitHub Copilot & Microsoft Copilot in daily automation workflows
- AI prompting for test creation, edge-case generation & debugging
- EPAM internal training in AI-assisted development practices

PROFESSIONAL SUMMARY

Senior QA Automation Engineer with 8+ years of experience across enterprise SaaS and distributed systems. Specialised in **Playwright (TypeScript / JavaScript) automation architecture** and end-to-end framework design from the ground up.

Proven track record of **leading Selenium→Playwright migrations**, improving execution speed, reducing flakiness, and increasing CI pipeline reliability.

Actively leveraging **AI-assisted development and prompting techniques** to accelerate automation, improve test coverage, and optimise QA workflows.

PROFESSIONAL EXPERIENCE

EPAM Systems · Senior Software Test Automation Engineer *Nov 2024 – Present*

- **Designing and maintaining Playwright + TypeScript** UI and API automation for large-scale enterprise systems across US and EU markets
- Expanding automated test coverage across multiple distributed services, improving regression stability and release confidence
- Embedding QA automation into **Azure DevOps** CI/CD pipelines within distributed cross-functional agile teams
- Maintaining and scaling Playwright test suites (~200+ tests) with CI execution (~45–55 min)
- **Leveraging GitHub Copilot and Microsoft Copilot** to accelerate test code generation, review, and documentation — applying AI-assisted development practices to reduce boilerplate effort and improve team productivity
- Applied EPAM internal training in LLM and AI usage to test planning, test case generation and automation strategy
- Driving structured automation strategy to reduce manual regression cycles and support high-frequency release cadence

N-IX · Senior QA Automation Engineer *Apr 2022 – Oct 2024*

LANGUAGES

Ukrainian — Native
Russian — Native
English — Professional

AVAILABILITY

B2B Contract basis
Remote EU/UK · US · Canada
Hybrid / Onsite: Bratislava
Hybrid: Vienna area
Immediate start

- **Led full migration from Java + Selenium to Playwright + TypeScript** — significantly reduced execution time and cut flakiness from ~30% to under 5%
- **Designed and implemented** a Playwright + TypeScript automation framework from scratch for an AI-driven SaaS platform, covering UI, API, and cross-browser scenarios
- Built CI-integrated test pipeline (GitLab CI) achieving a ~95%+ nightly pass rate, supporting rapid feature delivery
- **Authored 200+ automated test cases** covering critical user journeys, reducing manual regression effort by ~60%
- Contributed to cross-platform automation strategy within a large-scale agile product team

Dev.Pro · Automation QA Engineer *Sep 2020 – Sep 2021*

- Implemented **Selenium + Python (PyTest)** automation framework for a global payments platform
- Expanded automated coverage by ~40%, reducing manual regression cycle from ~3 days to under 1 day
- Improved regression reliability and testing consistency across multiple release cycles

Independent QA / Upskilling *Jan 2018 – Sep 2020*

- Freelance QA across SaaS platforms — manual testing, test case design, defect reporting, SQL validation
- Transitioned into automation: built first Selenium + Python framework, completed ISTQB Foundation preparation

EDUCATION & CERTIFICATIONS

- ISTQB Certified Tester – Foundation Level (2021)
- Software Testing Diploma – IT STEP Academy (2018)
- EPAM Internal Training: AI-Assisted Development & LLM Usage (2024–2025)
- Ph.D. in Business (Corporate) Law (2008)
- Master's Degree in Legal Sciences (2002)
